Who We Are

PAL Outdoors manufactures and designs outdoors wear and athletic apparel that is durable for everyday wear. Our apparel is made to last in all conditions. PAL Outdoors represents generational greatness. The PAL initials represents the initials of the founder Philip Aaron Liu as well as his father's and grandfather's initials. The climber is hanging onto the "P" rock, the same way the brand holds onto its familial roots.

PAL Outdoors uses Polartec fabrics for its fleece products. Polartec is a provider of synthetic fleece designed to keep you warm, dry, and comfortable in outdoor activities.

PAL Outdoors uses GORE-TEX technologies for its products as the fabric is considered the gold standard for waterproof. GORE-TEX is a membrane layer that stops liquid water, but allows vapor to pass through.
